

**ADVANCE HYDRA U-TECH PVT. LTD.**

Turning Waste Into Resource.... Worldwide

# Agro-Residue High Density Block Machine

ISO 9001 – 2008 Certified

## Advantage of Block

- 4-7 times density is achievable, that means less space, labor, handling required. Full truck load can be sent.
- Zero transit & handling wastage at each stop or transfer point
- Poly packed materials can be stored in open, only tarpaulin required to cover it.
- Dust free atmosphere is achieved for handling & storage. helps in maintaining hygiene & worker's health.
- Dry blocks packed almost eliminates the chance of bacterial growth

Material	Loose Bulk Density	Bale Density	Weight Per Bale. Kg
Rice Husk	105 kg/cu.m	508 kg/cu.m	13kg
Rice Straw	80 kg/cu.m	410 kg/cu.m	14 kg
Saw Dust	117 kg/cu.m	380 kg/cu.m	12.5 kg
Wheat Straw	96 Kg/cu.m	425 kg/cu.m	15 kg
Palm Mesocarp	130 Kg/cu.m	580 kg/cu.m	17 kg
Palm EFB	120 Kg/cu.m	400 kg/cu.m	13 kg
Mustard Husk	90 Kg/cu.m	520 kg/cu.m	15.3 kg
Beet Root	200 Kg/cu.m	600 kg/cu.m	15 kg

Since 34 years, Advance Hydra-Tech Pvt.Ltd is leading manufacturer and exporter of waste management & recycling machines like shredder, Baling machine, Briquetting, Sorting, for ferrous & non ferrous fodder, agro-residue & municipal solid waste.
